Fireplace Background

How it works:

Stepping into this green screen provides the perfect backdrop for any one of the above sceneries!

This is a visual technique used in film, TV & video games. It makes it possible to be right in the center of the festivities or even a winter wonderland!

Did You Know?

Snow will fall into the Enchanted Village! At specific times, we will shoot there in front of the post office. If lucky,

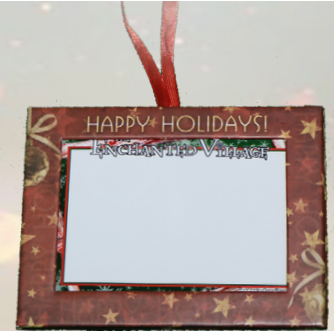

your photo can have falling flakes in it! How to tell when it will snow? You'll know when you first hear the opening jingle of Bing Crosby's "White Christmas"
